# Mathematics Terms

1. Absolute value
2. Addition
3. Arithmetic sequence
4. Average value of a function
5. Cardioid
6. Cartesian coordinate system
7. Coefficient
8. Collinear
9. Commutative property
10. Completing the square
11. Compound interest
12. Conic section
13. Constant
14. Cotangent
15. Degree of polynomial
16. Distributive property
17. Division
18. Domain
19. Double root
20. Ellipse
21. Equilateral triangle
22. Exponent
23. Exponential decay
24. Exponential function
25. Factoring of a binomial
26. Finite sequence
27. Foci of an ellipse
28. Fractional power
29. Geometric sequence
30. Geometric series
31. Hyperbola
32. Hypotenuse
33. Imaginary numbers
34. Inequality
35. Infinite sequence
36. Inverse property of addition
37. Isosceles triangle
38. Linear equation
39. Logarithm
40. Magnitude of complex number
41. Major/ minor axis of an ellipse
42. Monomial
43. Multiplication Property
44. Multiplying radicals
45. Negative exponent rule
46. Nonlinear system
47. Operation
48. Origin
49. Orthogonal
50. Parabola
51. Parallel lines
52. Parameter
53. Parenthesis
54. Partition
55. Perpendicular lines
56. Point-slope form
57. Polynomial function
58. Priority of operations
59. Proportionality
60. Pythagorean theorem
61. Quadratic equation
62. Radius
63. Real number
64. Remainder
65. Root
66. Scientific notation
67. Secant
68. Slope
69. Trigonometric function
70. Trinomial
71. Vertex of a parabola
72. Zero exponent rule
